Remise des Prix Posters
Jury

Catherine Vergely-Vandriesse, Dijon
Stéphane Germain, Paris
Gilles Lemesle, Lille
Claire Arnaud, Grenoble
Elise Belaidi-Corsat, Grenoble
Is resynchronization therapy really efficient in laminopathy?
Julie Burdeau, Rouen

Sequential nephron blockade with diuretics improves diastolic dysfunction in patients with resistant hypertension: a substudy of the PHARES trial
David Fouassier, Paris

Evaluation of the risk markers of arrhythmia in a large population of Brugada syndrome patient
Soraya Anys, Nantes

Characteristics and prognosis of moderate aortic stenosis
Géraud Delesalle, Saint-Brice
Role of macrophages in early adaptive cardiac hypertrophy
Mathilde Flamant, Paris

Functional characterization of PALMD risk locus in calcific aortic valve stenosis
Mickaël Rosa, Québec – Canada

Ezh2 as an epigenetic checkpoint during monocyte differentiation: a potential target for cardiac recovery after myocardial infarction
Julie Rondeaux, Rouen

Heterogeneous RyR cluster distribution and phosphorylation in pig cardiomyocytes helps to achieve homogenous calcium transients
Guillaume Gilbert, Bruxelles - Belgique
Impact of calcineurin signaling on chromatin remodelling in the development of cardiomyocyte hypertrophy
Roberto Pane, Toulouse

Repolarization and arrhythmia modulation by K-ATP channel activation in the porcine right ventricle
Cindy Michel, Bordeaux

Myocardial infarct repair with the human muscle-derived stem cells “MuStem”
Alice Rannou, Nantes

Long-term impact of postnatal nutritional programming on cardiac sensitivity to ischemia-reperfusion injury in vivo and on cardio-protective pathways in mice
Eve Rigal, Dijon
Rendez-vous à Grenoble
du 13 au 15 mai 2020
